ANNUAL MEETING

DAY 1 13TH APRIL 2023

PROGRAMME: FOCUS ON PRESERVATION RHINOPLASTY

9:30 - 10:25	Registration
10:25 - 10:30	Introduction Lucian Ion
10:30 - 11:00	Preservation rhinoplasty - personal evolution and principles Teoman Dogan
11:00 - 11:20	Dorsal de-projection - step by step Teoman Dogan
11:20 - 11:40	Specialist instrumentation and objectives Teoman Dogan
11:40 - 12:00	Introducing preservation techniques in a structural practice Paddy Jassar
12:00 - 12:30	Discussion
12:30 - 13:30	Lunch
13:00 - 14:00	AGM
14:00 - 14:20	Tip support and contouring principles and technical tips Teoman Dogan
14:20 - 14:40	Tip projection planning - correlation with skin type and profile Teoman Dogan
14:40 - 15:00	Management of patients with thick nasal skin Santdeep Paun
15:00 - 15:20	Hybrid correction of dorsum, projection and deviation Lucian Ion
15:20 - 15:30	Discussion
15:30 - 16:00	Coffee break
16:00 - 16:15	Nasal airway assessment and inferior turbinate management Huw Williams
16:15 - 16:30	Case selection in preservation rhinoplasty Teoman Dogan
16:30 - 16:45	Piezo for preservation techniques in straight and deviated noses Milos Kovacevic (remote)
16:45 - 17:00	Discussion
17:00	Close of meeting

ANNUAL MEETING

DAY 2 14TH APRIL 2023

PROGRAMME: SECONDARY RHINOPLASTY

9:00 - 9:20	Consultation, investigations, consent Kalpesh Patel
9:20 - 9:40	Reconstruction of the nasal dorsum Milos Kovacevic (remote)
9:40 - 10:00	Donor cartilage in secondary rhinoplasty Santdeep Paun
10:00 - 10:15	Costal cartilage harvest Milos Kovacevic (remote)
10:15 - 10:30	Discussion
10:30 - 11:00	Coffee break
11:00 - 11:20	Internal valve management - avoiding complications Huw Williams
11:20 - 11:40	Reconstruction of alar cartilages Santdeep Paun
11:40 - 12:00	Nostril support in primary and secondary interventions Milos Kovacevic (remote)
12:00 - 12:20	Nasal deviation correction in secondary rhinoplasty Lucian Ion
12:20 - 12:30	Discussion
12:30 - 13:30	Lunch
13:30 - 14:00	Post-traumatic rhinoplasty - correction of deviation Santdeep Paun
14:00 - 14:20	Internal and external valve correction in secondary rhinoplasty Alwyn D'Souza
14:20 - 14:40	Pollybeak deformity - mechanisms and management Santdeep Paun
14:40 - 15:00	Nostril asymmetry and secondary alar base corrections Alwyn D'Souza
15:00 - 15:15	Discussion
15:15 - 15:40	Coffee break
	Basics and preparation for dissection course
15:40 - 16:00	Degloving the nose - open and closed approach Alwyn D'Souza
16:00 - 16:20	Degloving of the nasal septum and cartilage harvest Huw Williams
16:20 - 16:40	Osteotomies and tip grafts Santdeep Paun
16:40 - 17:00	Osteotomies with ultrasonic instruments Lucian Ion
17:00	Close of meeting
